

The BDTI Canva

by the BTDI Team

The BDTI Canva aims to help you build a strong data use case through a series of questions.

Which information helps From which sector and or domain?

For more information, visit the BDTI website

Contact us by emai: EC-BDTI-PILOTS@ec.europa.eu

Context:

Who are you? Who are your stakeholders?

Data's added value:

Data's availability:

Does the data you need you address the problem? exist?If it doesn't exist, can you collect it? From whom can you get the data you need? Can you reuse the data? What license applies to the data you'd like to use? How is the quality of the data you'd like to use? Are the different datasets interoperable? Do you know how to connect the dots?

Your solution

Combine what you've learned from the elements above into a statement describing your solution

```
Objective(s):
```

What is the problem you are trying to address? What is your timeframe?

	Data's risk(s):	Data's processing:
		What do you need
	using data to address this	process and analyz
	objective? Are there legal	(i.e., tools, software
	and ethical considerations to make? Are you dealing with	power,)? Do you a have them? If you c
	personal data?	where can you get
		applying to the BD1

to gather, yze the data already do not, them (e.g.,)TI)?

Data skills:

What data literacy and skills do you need (i.e., data engineering, e, computing data analysis, data science, data visualization)? Do you already have these available within your team/organization?
